DRAFT

LEGEND

Data layers pertaining to conservation lands represent the acquisition status of properties as of 2010-06-30. Symbols represent funding split; in some cases, interest acquired is less-than-fee simple. "Acquired - 100% State" and "Acquired - Predominantly State" include all lands purchased by either the State of Florida or the South Florida Water Management District. Some local funds may have been used as well (Appendix E). "Predominantly" means >50%.

- Acquired - 100% State
- Acquired - Predominantly State
- Acquired - County and/or City
- Acquired - 100% Federal
- Acquired - Predominantly Federal
- Percent of Land Donated by State of Florida to Department of the Interior
- Land Protected through Mitigation
- WRP or FRPP Conservation Easement
- Acquired with State Funds and WRP Conservation Easement
- Private Conservation Land
- Tribal Land
- Florida Forever BOT Project or SFWMD Natural Lands Project
- CERP Project Conceptual Boundary
- Expedited Project
- SFWMD Project Land
- SFWMD Boundary
  - Northern Everglades
  - Southern Everglades
- County Boundary
- Lake
- River
- Interstate
- U.S. Highway

DATA SOURCES: Data layers depicting acquired conservation lands were compiled by the Florida Natural Areas Inventory (FNAI) using data received from many different sources including federal, state, and local managing agencies, water management districts, and private conservation organizations. The Florida Forever Board of Trustees (BOT) Projects data layer represents projects on the Florida Forever BOT Acquisition List as of 2010-06-30; these data were compiled by FNAI based on information provided by FDEP Office of Environmental Services. South Florida Water Management District (SFWMD) provided digital data for the Comprehensive Everglades Restoration Plan (CERP) Projects and SFWMD Natural Lands Projects 2010-07. [Disclaimer: Any information, including but not limited to software and data, received from the SFWMD ("District") in fulfillment of a request is provided "AS IS" without warranty of any kind, and the District expressly disclaims all express and implied warranties, including but not limited to the implied warranties of merchantability and fitness for a particular purpose. The District does not warrant, guarantee, or make any representations regarding the use, or the results of the use, of any information provided to you by the District in terms of correctness, accuracy, reliability, timeliness or otherwise. The entire risk as to the results and performance of any information obtained from the District is entirely assumed by the recipient. This map is a conceptual tool utilized for project development only. This map is not self-extracting or binding, and does not otherwise affect the interests of any persons including vested rights or existing uses of real property.] Mitigation lands data were provided by FDEP 2010-09, SFWMD 2010-08, local governments 2007-07, 2008-07, 2008-08, and 2009-09, and The Nature Conservancy 2007-08. USDA Natural Resources Conservation Service provided digital data for Wetlands Reserve Program (WRP) and Farm and Ranch Lands Protection Program (FRPP) conservation easements 2008-08, 2008-10, and 2010-08.

Prepared by the Florida Natural Areas Inventory, September 2010, with funding provided by the Florida Department of Environmental Protection
