SOUTH FLORIDA ECOSYSTEM RESTORATION TASK FORCE
Office of the Executive Director

8/24/2004

To: South Florida Ecosystem Restoration Task Force Member

The Combined Structural and Operating Plan Advisory Team (Team) is charged with assisting the Task Force in providing recommendations to the Corps during key phases in the CSOP process and, by doing so, to increase stakeholder participation in the CSOP process. On July 30, 2004, the Team completed its first product for the Task Force. These Expectations, Assumptions and Concerns appear in order of overall group support for each statement, categorized geographically.

The Team intends for this document to be a useful tool for evaluating model alternatives created by the CSOP Project Delivery Team. The CSOP Advisory Team sees this list of Performance Expectations as the first phase of providing recommendations to the Task Force as the CSOP develops.

Sincerely,

Carol Rist

Carol Rist
Chair
CSOP Advisory Team
