

Biscayne Bay Regional Restoration Coordination Team (BBRRCT)

Agenda

January 23, 2013

Due to the interest of the BBRRCT Team in the Central Everglades Planning Project (CEPP) and the relationship of CEPP to Biscayne Bay, this month, rather than having a Regular Business Meeting, the BBRRCT will attend the Central Everglades Planning Project's (CEPP) Project Delivery Team (PDT) Meeting. The CEPP PDT Meeting will be held on January 23, 2013, at the South Florida Water Management District (SFWMD) in the auditorium on the first floor of the SFWMD Building B-1 (Main Building), 3301 Gun club Road, West Palm Beach, Florida from 9:00 am to 5:00pm. It is anticipated that the PDT will be discussing a tentatively selected Plan.

After the PDT Meeting, the BBRRCT will adjourn to the SFWMD cafeteria where Pamela Sweeney will chair a session at which Bob Johnson, Director of the National Park Service's South Florida Natural Resources Center, and Eric Stabenau, Oceanographer and Coastal Ocean Modeler at the Center, will be available for a discussion and any comments or questions from the BBRRCT. This session will not have a call-in number.

The PDT Meetings are meetings with public access. There is a call-in number and a web meeting address. We will attempt to post the PDT Agenda with the call-in number and web meeting address on the BBRRCT web site. However, this information can also be found prior to the PDT Meeting by taking the following steps: On the home page of the DOI Office of Everglades Restoration Initiatives (<http://www.sfrestore.org>), click on the USACE/SFWMD Central Everglades Planning Project; Click on the USACE; Click on the header for "News and Events" and then click on the drop down for "Public Meetings and Events"; Click on the Box for CERP under the heading "Most Requested" and then under "Meetings with Public Access" the January 23rd PDT will be listed with the agenda and any other documents.
