

# Hunting Access in North Water Conservation Area 3B

## The Governor's Resolution Supporting the People's Right to Hunt and Fish

The Governor recognizes that hunting and fishing in Florida is a traditional cultural heritage that is older than the state itself. Hunting and fishing is an important part of the state's economy and the related recreational opportunities are most beneficial to the people.

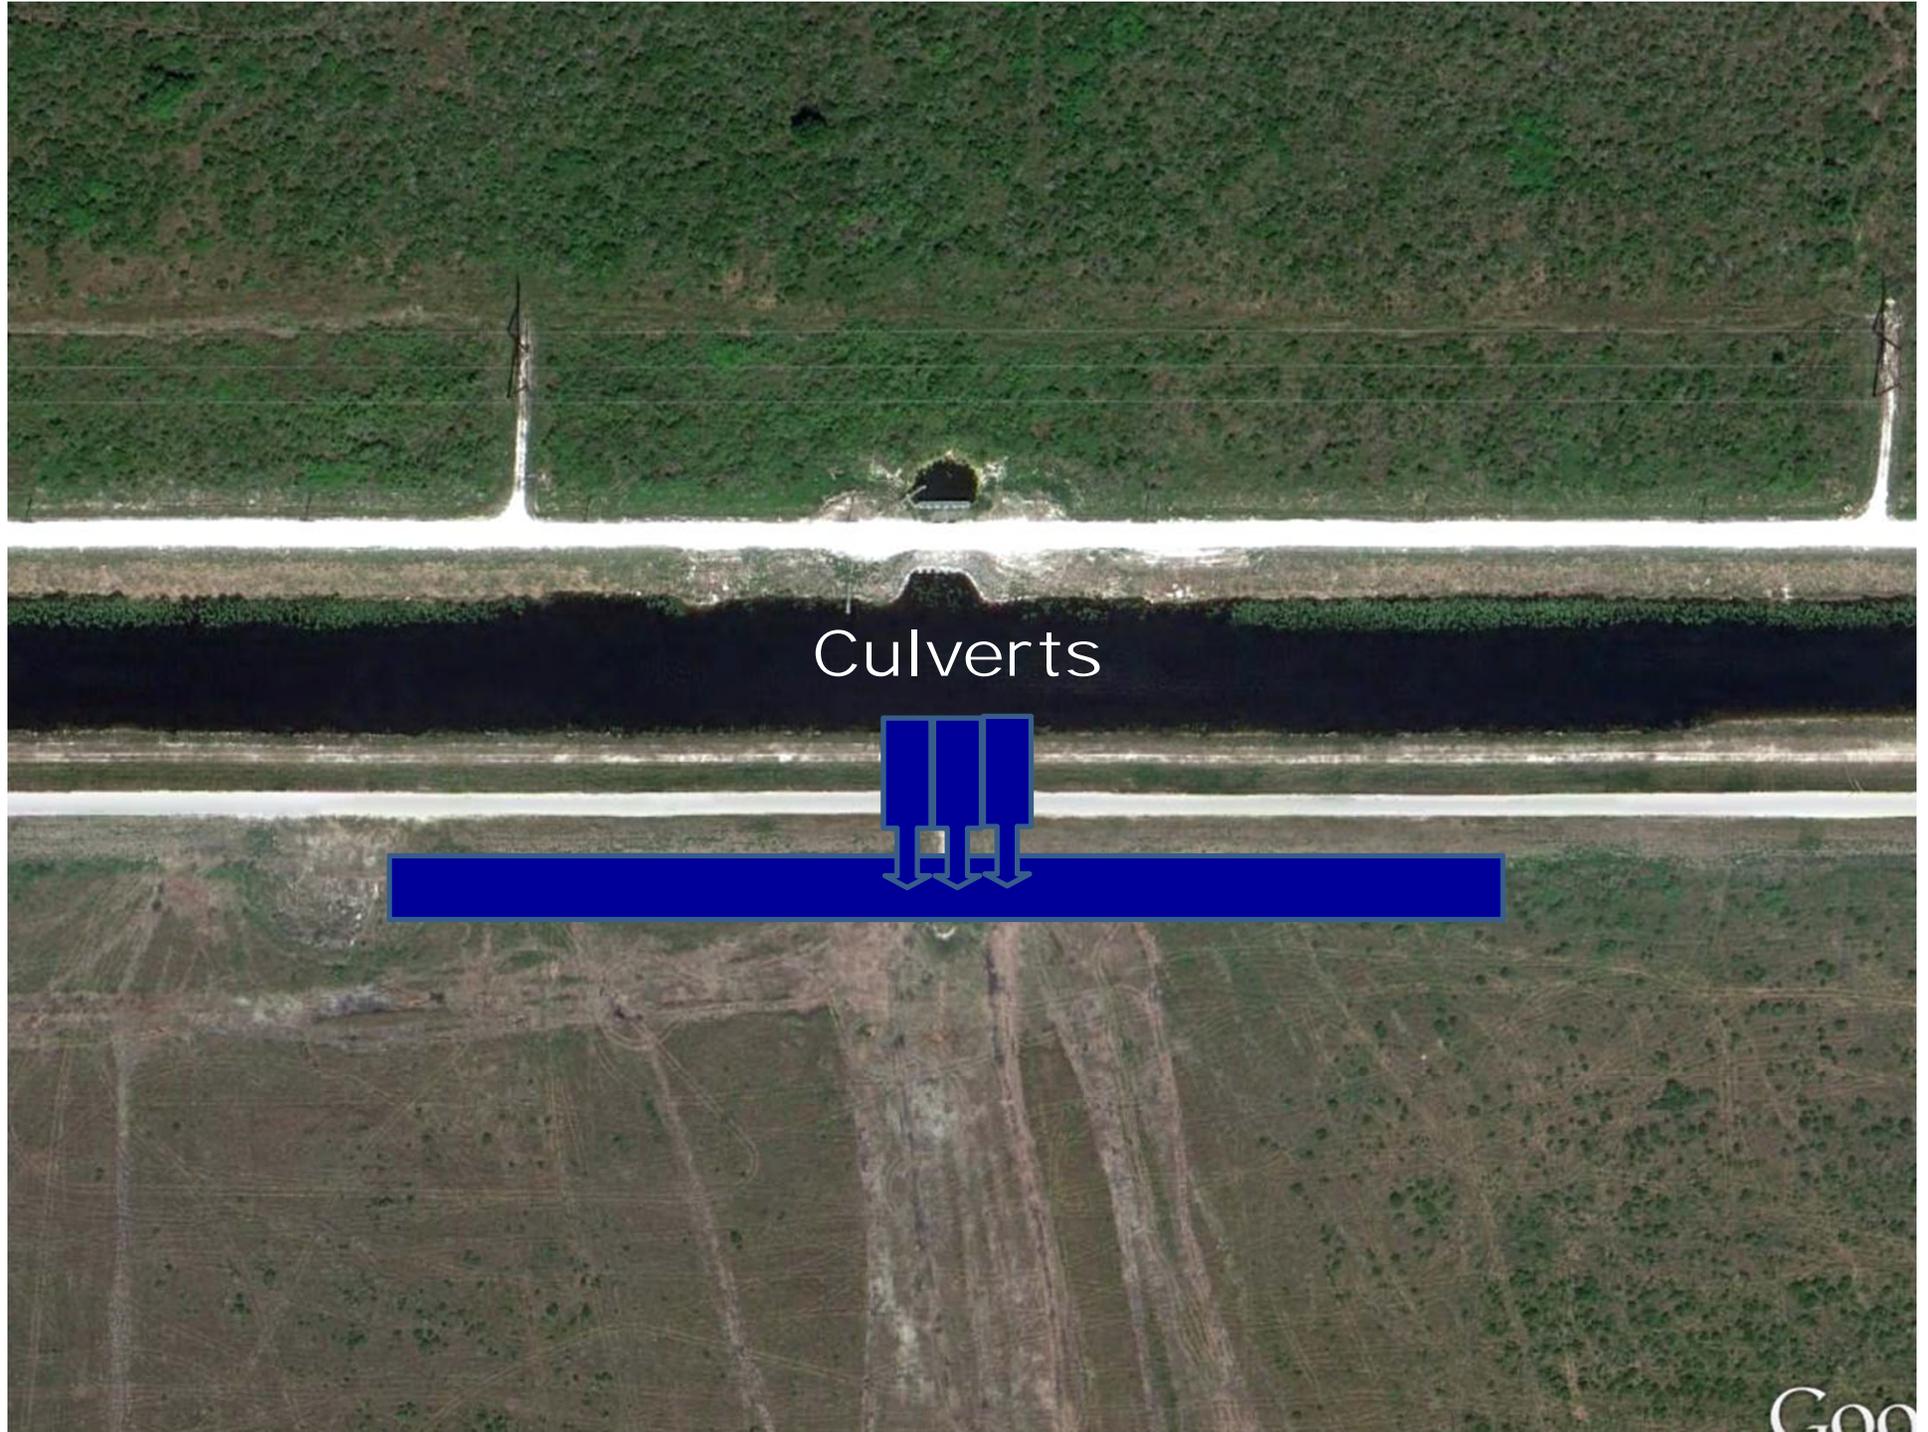

# Hydropattern Restoration Feature Project Area

## Purpose:

Increase and improve the area of WCA 3 experiencing sheetflow by removing barriers to flow related to the Miami Canal and by distributing flow southward from the entire length of the northern boundary of WCA 3A.
