

## Integrated Delivery Schedule Sequencing Plan Summary Sheet

**Sequencing Plan Name:** Establish a Unique and Descriptive Name of the Proposed Sequencing Plan.

Estuary health (increasing storage north of Lake Okechobee)

**Author of the Sequencing Plan:** Identify the name of the Author(s) that developed the Sequencing Plan during the exercise and identify spokesperson if applicable.

Tom Bausch  
Mary Oakley

**Anticipated Benefits:** Identify geographic, ecological, hydrological, and/or economic benefits of your sequencing plan.

**Sequencing Plan:** Identify projects in your recommended order of sequencing. (i.e. what projects show go below the black line on the Draft IDS Worksheet)

1. ~~At~~ IRL - south Natural lands (needs PPA)
2. IRL - south C-23/24 (+ STA)
3. IRL - south C-25 (+ STA)
4. C-43 (Caloosahatchee)
5. Revisit Lake O, ASRs (find another way to replace the storage)
6. Revisit EAA storage

7. Central Everglades Planning Project
8. Lake Okechobee watershed (dispersed water storage)

**CERP Goals:** Identify which CERP goals your sequencing plan contributes towards and to what extent.

**Dependences:** Identify predecessor projects that impact your sequencing plan.

**Other Considerations:** Any other factors that were relevant in developing your sequencing plan.
