Lake Okeechobee Watershed Project Configuration Summary Sheet

Configuration Name: Establish a Unique and Descriptive Name of the Proposed Configuration.

Save the Estuary

Author(s) of the Configuration: Identify the name of the Authors that developed the Configuration during the exercise.

Ed Fielding, Yongshan Wan, Joyce Zhang

Configuration's General Description: This description should be able to convey the general aspects, elements, and general location of management measures in this configuration.

✓ A large above ground reservoir (14-10 ft deep)
North of LO, ~~maxim~~ max. use of District
Land.

✓ East of Lake Istokpaga reservoir
w reservoirs in Taylor Creek / Nubbins slough

Management Measures: List the management measures used in the configuration (Reservoirs, ASR, Wetland/Floodplain Restoration).

Reservoirs: ~~25,000 ac x 10 ft = 250,000 ac-ft~~
ASR: ~~10,000 ac x 10 ft = 100,000 ac-ft~~
~~10 ASR~~

How Water Flows Through the Configuration: This description should identify the travel route of the water that the configuration will be managing. Identify where the water is coming from and where it goes. Generally describe how the water gets from the originating water source (for example, which existing canals/tributaries are used or if new conveyance features are needed) to the final destination of the water.

use the existing configuration + water

Objectives: Identify and prioritize (rank) the specific LOWP Objectives that the configuration is intended to meet (use the list of Objectives as needed).

Anticipated Benefits General Description: Identify why the Author(s) chose the features in the configuration. List, prioritize and provide a general description of any benefits anticipated from the Proposed Configuration.

1. 25,000 ac X 10 ft \approx 250,000 ac-ft
 2. 10,000 ac X 10 ft \approx 100,000 ac-ft
 3. 3,000 ac X 10 ft \approx 30,000 ac-ft
 4. 2,000 ac X 5 ft \approx 10,000 ac-ft
 5. ASR at 6 locations \approx 110,000 ac-ft
-
- 500,000 ac-ft

6. 15,000 ac X 10 ft
- 150,000 ac-ft
-
- 650,000 ac-ft

Operating Assumptions General Description: List anything specifically that the Author(s) want relative to the operation of the configuration.

Other Key Elements: List the main Considerations that have not been mentioned elsewhere on this form. Examples may include potential Recreational Opportunities or Concerns.
