

# Strategy & Biennial Report - Goal 3 Update

Task Force Meeting  
May 20, 2015

# Strategy & Biennial Report

- Describes:

**HOW** Restoration Will Occur  
(The Strategy)

**WHAT** Progress Has Occurred  
(The Biennial Report)

# Background

- Three strategic goals first published in 2000:
  - Goal 1: Get the water right
  - Goal 2: Restore, preserve, and protect natural habitats and species
  - Goal 3: Foster compatibility of the built and natural systems

# Background

- Since 2000, minor edits within all three goals
- Last significant changes to Goal 3 were in 2008
- Added a new subgoal (3D) on invasive exotic species in 2014

# 2016 Edition

- Discussed updating Goal 3 at the April 20<sup>th</sup> Working Group/SCG meeting
  - Focus on Subgoals 3A (land resources), 3B (flood protection), and 3C (water resources)
  - Incorporate latest knowledge, policies, and activities
  - Address issues at the nexus of the built and natural environments, including climate change and sea level rise
  - Engage regional leadership
