

**Working Group and  
Science Coordination Group  
Public Workshop:  
Western Everglades Restoration  
Project**

*August 23, 2016*

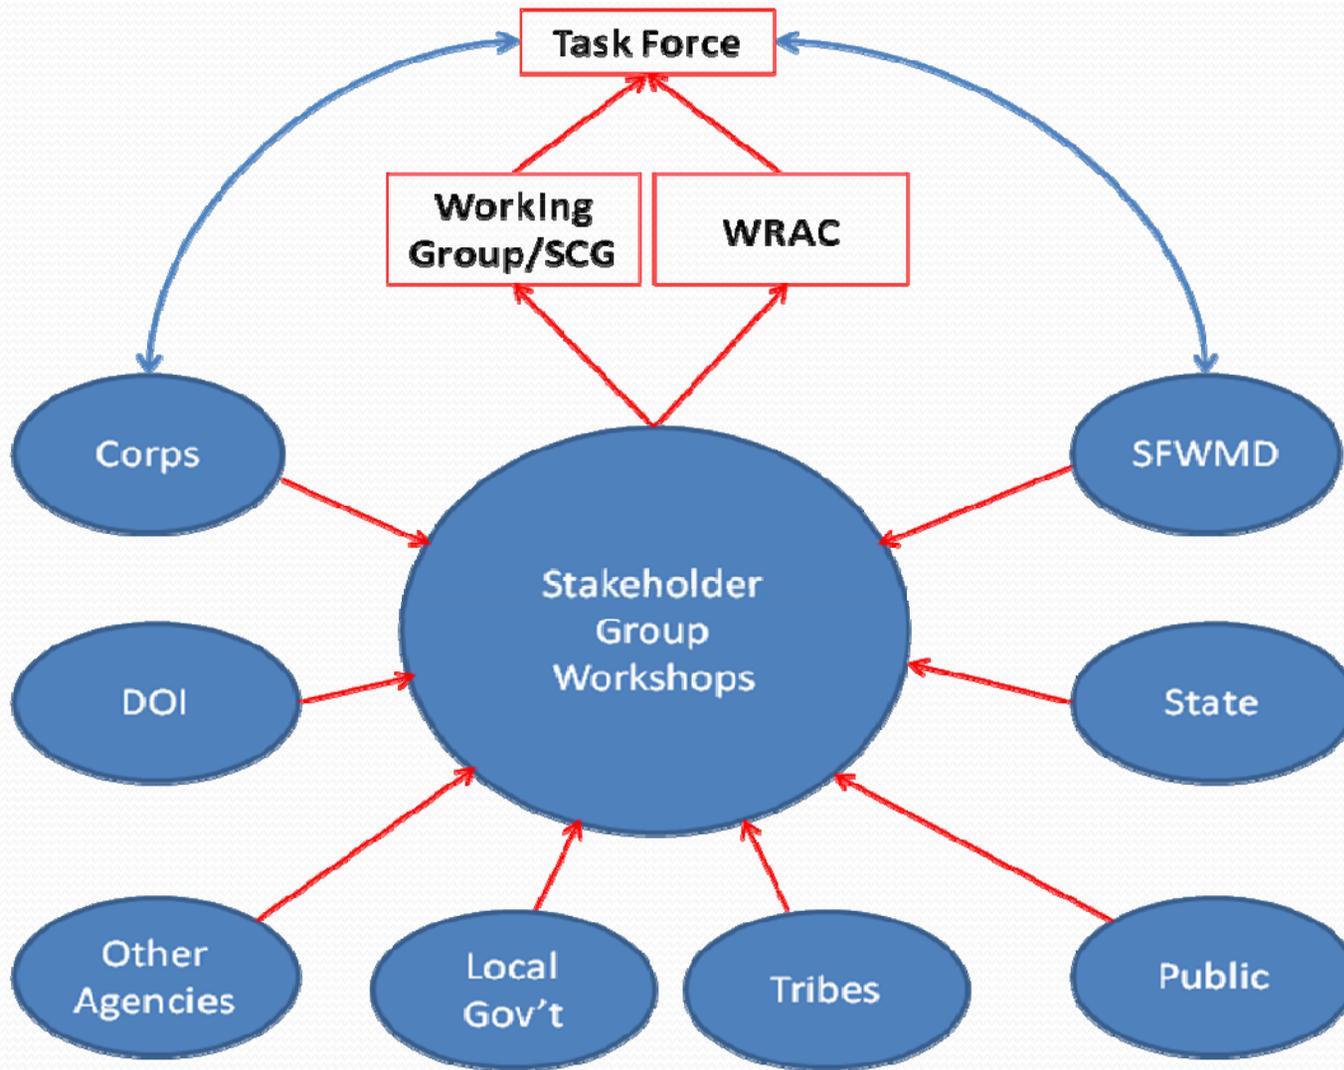

# Workshop Ground Rules

- Welcome to the conversation!
- Please sign in
- Workshop is being recorded
- Please use a microphone and identify yourself when speaking
- Please be concise
- Hold phonecalls/sidebar conversations outside

# Public Participation

- Regular Briefings
  - Task Force (Biannual)
  - Working Group/SCG Meetings
  - SFWMD Governing Board (Monthly)
  - Water Resources Advisory Commission (Monthly)
- Working Group/SCG Sponsored Public Workshops
  - Enhance opportunities for meaningful public engagement
  - Topic meetings to address particular issues

# [www.EvergladesRestoration.gov](http://www.EvergladesRestoration.gov)

- For all workshop information:
  - Presentations
  - Workshop recordings and products
- SFERTF Calendar
- Follow us through the “What’s New” link on the homepage to be emailed updates
  - Select “Follow” on the bottom right of the screen to subscribe to our meeting notification and blog

## What is Everglades Restoration?

The Everglades is recognized both nationally and internationally as one of the world's most unique natural and cultural resources. Encompassing nearly 18,000 square miles of the southern tip of the Florida peninsula the Everglades and the greater Everglades ecosystem (spanning from the Kissimmee River basin north of Lake Okeechobee all the way south to Florida Bay) are also the focus of the world's largest intergovernmental watershed restoration effort.

AUGUST 18, 2016

## Western Everglades Restoration Project Workshop

**South Florida Ecosystem Restoration Working Group Sponsored Workshop  
Western Everglades Restoration Project**

Please RSVP for the August 23rd workshop on the Western Everglades Restoration Project being conducted by the South Florida Ecosystem Restoration Working Group/Science Coordination Group. The purpose of the workshop is to engage the public in sharing knowledge and expanding and refining the existing knowledge base regarding historic conditions, existing conditions, water flow, landscape features, and restoration ideas for the project area.

Your RSVP will help us prepare sufficient materials for everyone's participation.

Please click here to RSVP

**Tuesday, August 23rd, 2016**  
**Time: 10:00 AM - 4:00 PM**

**John Boy Auditorium**  
**1200 South W.C. Owen Avenue**  
**Clewiston, Florida 33440**
