

Biscayne Bay Regional Restoration Coordination Team (BBRRCT)

Presentation for the
South Florida Everglades Ecosystem Restoration
Working Group

October 21-22, 2009

Biscayne Bay Regional Restoration Coordination Team:

Issues of Concern

- Biscayne Bay Coastal Wetlands Project
- FPL's Turkey Point projects
- Annual drawdown of groundwater
- Surface water and groundwater needs for Bay restoration
- Water quality and salinity
- Land acquisition for resource protection
- Sustainable uses of the Bay
- Compatible land uses
- Habitat restoration
- Sea level rise
- Re-shaping the BBRRCT for greater effectiveness

Questions ?
