

Task Force Priorities for 2005

In support of CERP implementation the Task Force will:

- Provide Task Force consultation on the following items:
 - MISP – January (completed)
 - Guidance Memoranda and Pre-CERP Baseline – May (completed)
 - Interim Goals Agreement
 - Interim Targets
 - 5-Year Report to Congress
 - System Operating Manual
 - Initial CERP Update
 - PIRs
- Track the status of CERP implementation and provide comments
- Track the status of critical ASR tasks and provide comments
- Track the status of the CIWQFS and provide comments
- Track the status of Acceler8 implementation and provide comments

In support of non-CERP implementation the Task Force will:

- Continue to support the Army in developing its CSOP development process with advice from a broad range of stakeholders.
- Track the status of MWD and provide comments

In support of system-wide restoration the Task Force will:

- Develop a set of peer reviewed system-wide indicators by 2006. These indicators will be used to measure system-wide success and will be included in the 2006 Strategy and Biennial Report.
- Coordinate strategic level science by implementing (Phase I) and refining its Plan to Coordinate Science (Phase II by 2006).
- Coordinate consistent south Florida restoration projects by updating its annual Integrated Financial Plan.
- Coordinate the acquisition of land for south Florida restoration by updating its annual Land Acquisition Strategy
