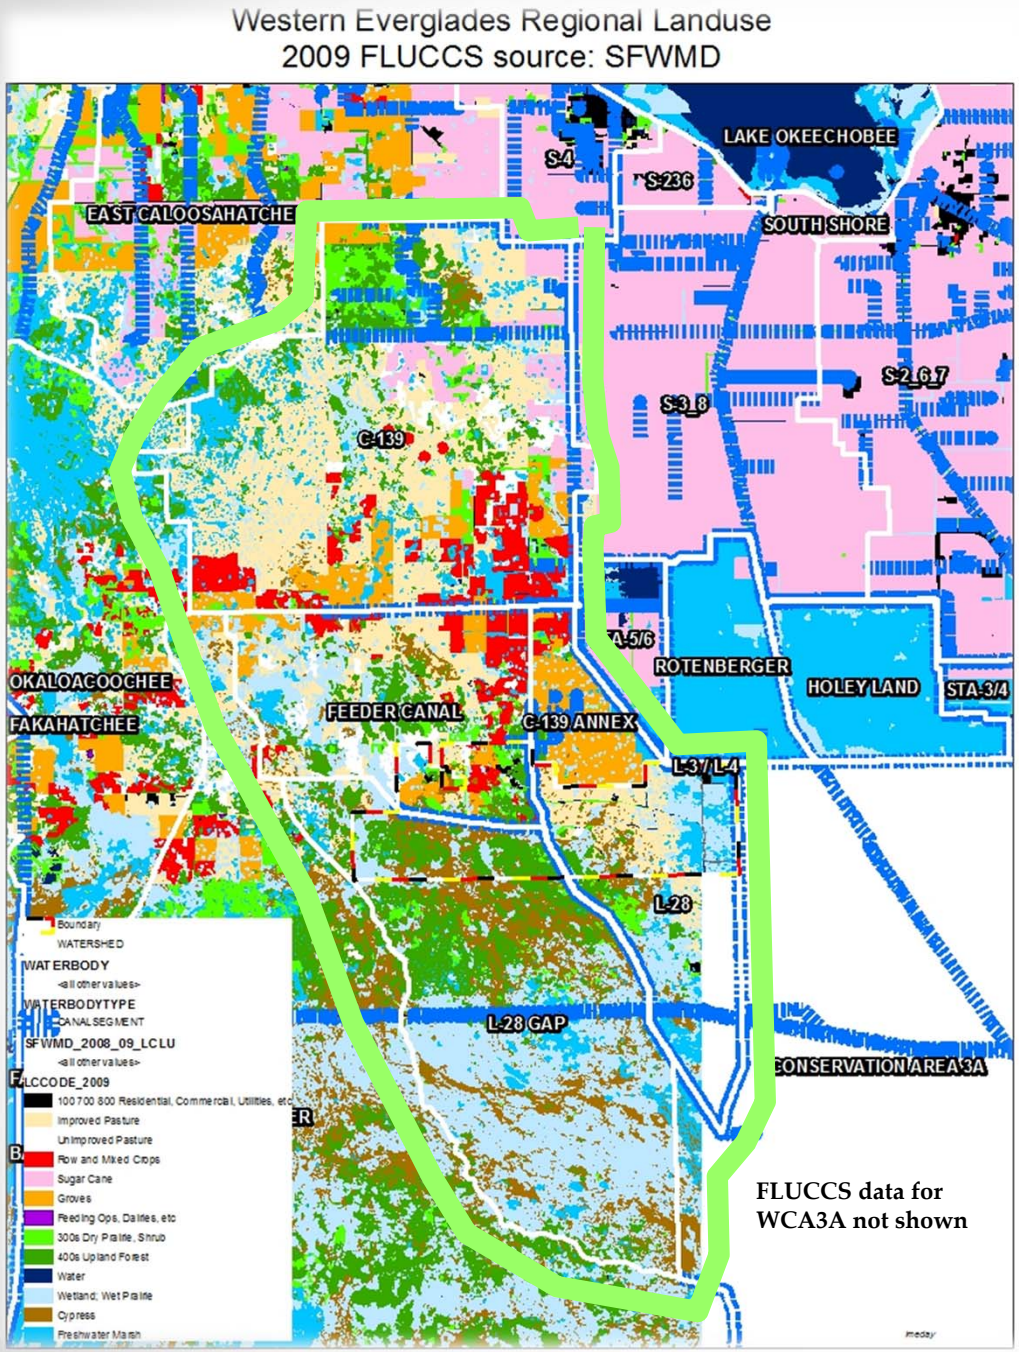
Western Everglades Restoration Plan

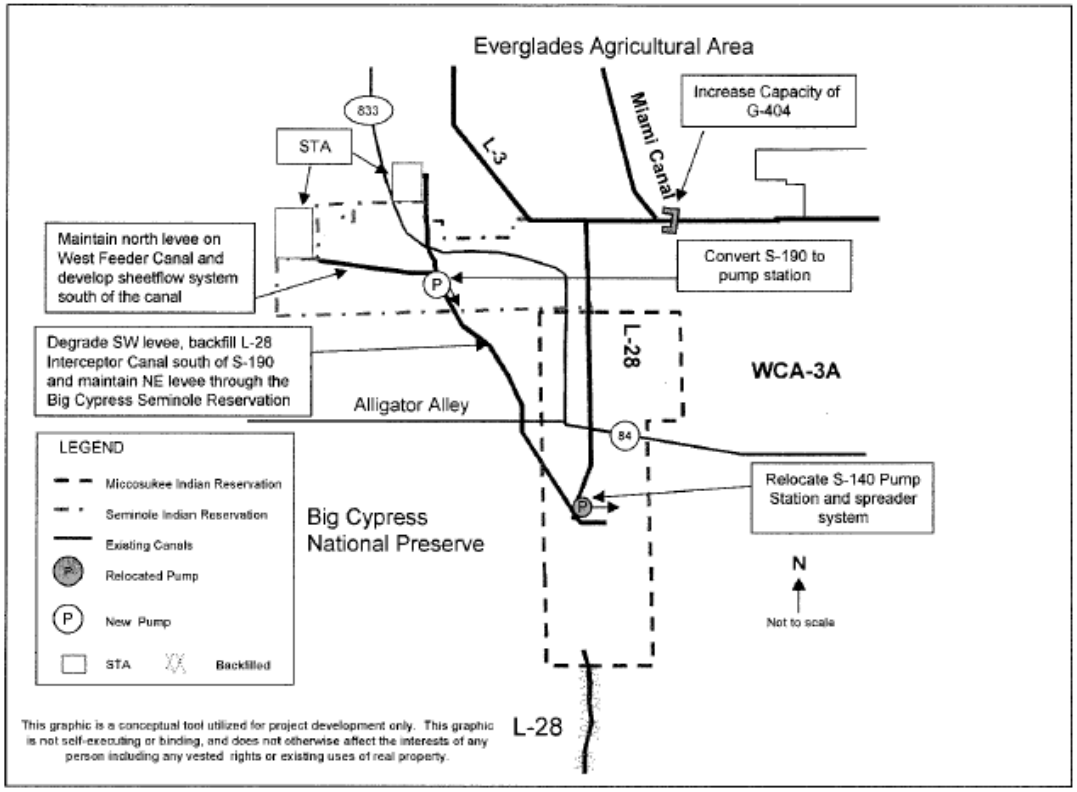
CERP Comes to the Western Everglades



Where are the Western Everglades?

- C139 Basin
- C139 Annex
- Feeder Canal Basin
- L28 Basin
- L28 Gap Basin

CERP contemplated restoration to this area



Alternative D13R
Big Cypress/ L-28 Interceptor
Component Map 15

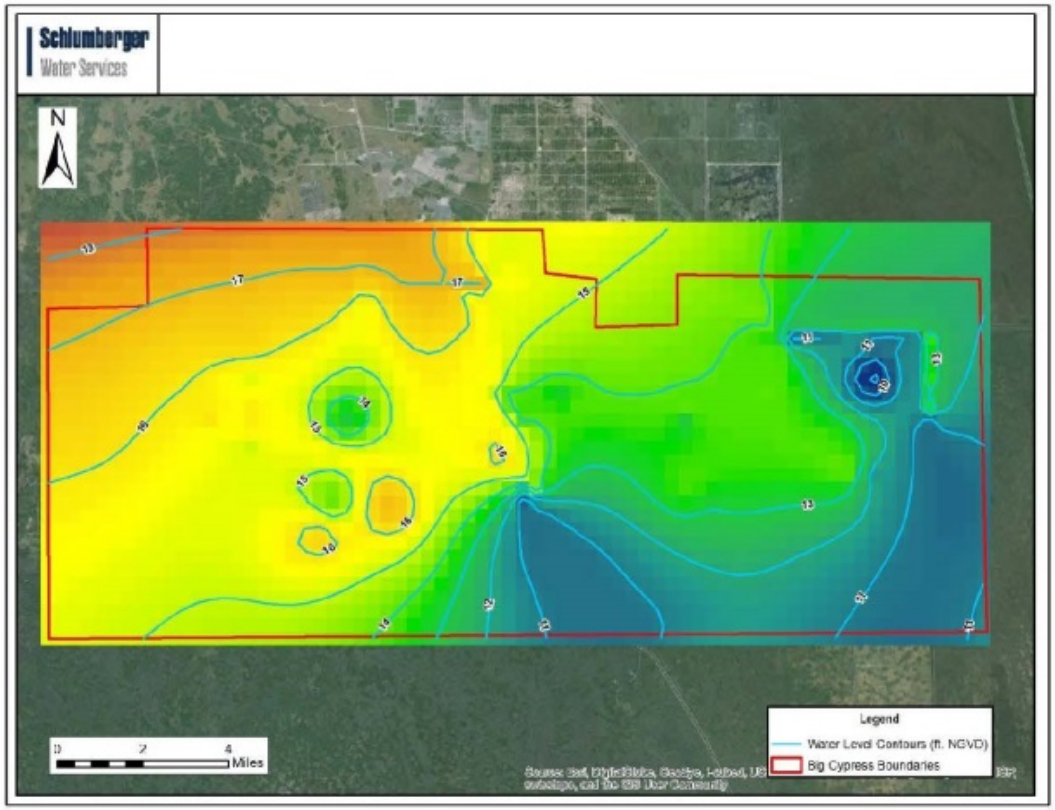
We need this project now more than ever!

West Feeder Canal Weir

USSO

While we understand the needs of this part of the system better now than we did in the 1990's, we still have a lot of data gaps to address

Planning and Design of the Western Everglades Restoration Project must be data-driven



WERP should restore…. Timing

WERP should restore… Distribution

WERP should restore… Quality

WERP should restore… Quantity

Discussion
